SELECT ARC

Hobart® Flux-Cored Wire

FabCO Triple 7

FabCO® Triple 7

- AWS: A5.20: E71T-1C/M HB, E71T-9C/M HB
- Gas-shielded, flux-cored wire
- Exceptional puddle control in all positions
- Low spatter
- Effortless slag removal
- Reduces post-weld cleaning and rework
- Excellent weldability on mixed gas and 100 percent CO₂
- Low hydrogen weld deposit

Hobart® Metal-Cored Wire and Solid Wire

FabCOR Edge XP

FabCOR® Edge® XP

- AWS: A5.18: E70C-6M-H4
- Gas-shielded, metal-cored wire
- Excellent weldability, high-deposition rate
- Market-leading silicon control technology
- Balanced arc characteristic
- High welder appeal
- Reduces post-weld cleaning and rework

Quantum Arc® 3 and 6

- AWS: ER70S-3 and ER70S-6
- Solid wire
- Excellent feedability
- Quantum Arc 3: For use with CO₂ or argon-rich shielding gases
- Quantum Arc 6: High in oxidizers for applications with light rust or mill scale

STICK ELECTRODES

We Also Refurbished Welders And Accessories For Sale

Since 1946 J. A. Cunningham Equipment Has Specialized in Welding Equipment Repair

We repair machines under factory warranty, as well as older, vintage machines made in the 1970's, 80's, 90's, and newer. We have a full three phase shop with test and calibration equipment.

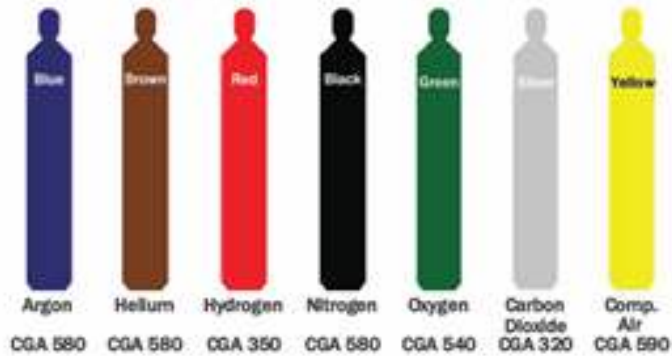

We Carry A Full Line Of Industrial Gases

Gas Cylinder Color Chart

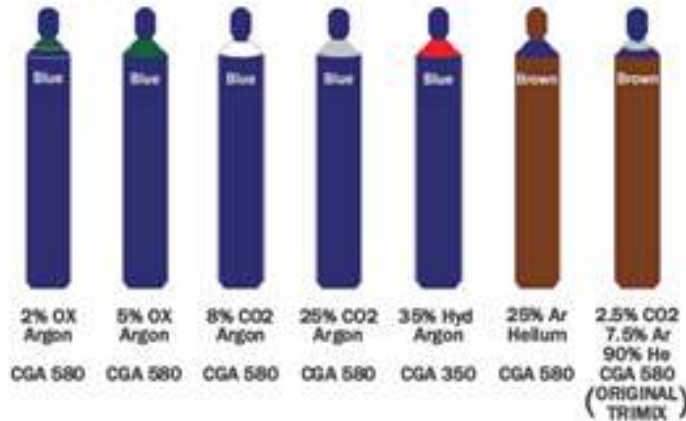

Fuel Gases: Low Pressure Cylinders

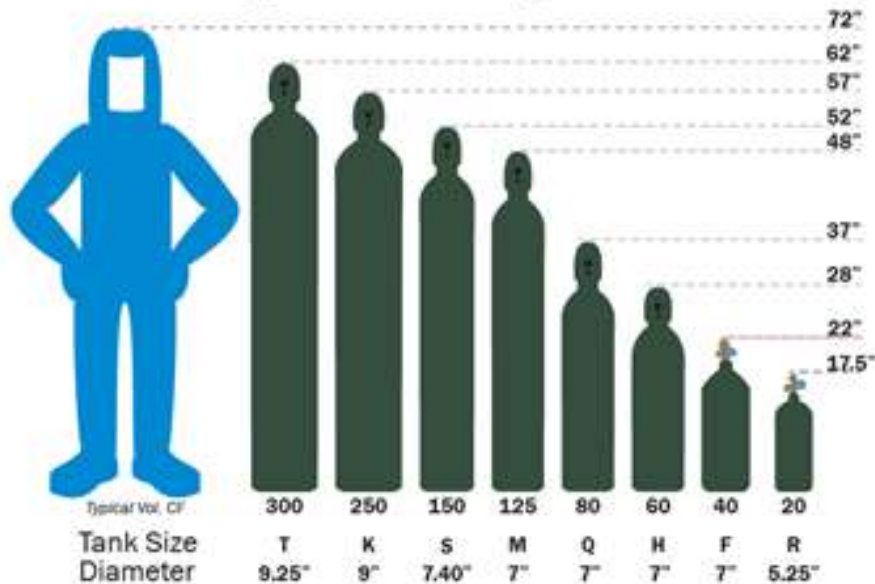

Welding & Industrial Pure Gases High Pressure Cylinders

Welding Gas Mixtures High Pressure Cylinders

High Pressure Cylinders

Since 1962

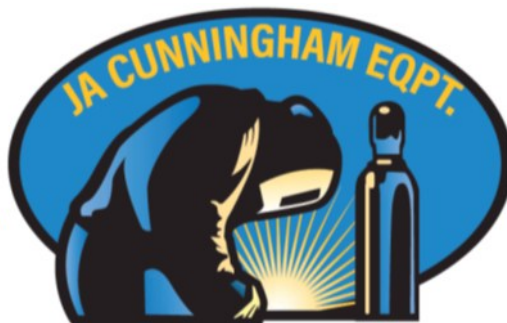

Weldsale Company, a sister company to J.A. Cunningham Equipment, is celebrating over 63 years of selling Weldsale Platen tables and tooling. Weldsale cast iron tables are used for welding, bending, layout, and setup of weldments. They stay flat, spatter does not stick, and the welders love them!
